

## Flight Operations Support

*Flight Operations covers many areas from Simulator Evaluation to Flight Operations Audits.*

*Reliance Aerospace Solutions (Relaer) offers the Flight Operations Support Service as a practical and cost effective outsourcing solution.*

### Simulator Evaluation

*The purchase of a simulator is a significant expenditure requiring the need for an independent view of the product to ensure that it fits the requirement of the airline.*

*The simulator evaluation service consists of having Relaer assist you in evaluating the proper simulator adapted to your needs as well as review the cost effectiveness of a simulator.*

*In addition Relaer is able to provide the expertise necessary to test a simulator prior to acceptance, including the evaluation of the visual systems, thanks to staff that have been performing simulator acceptances for many years.*

### Experience

*Relaer staff has over 20 years of Flight Operations experience whether in airlines or heading aircraft manufacturer's training department.*

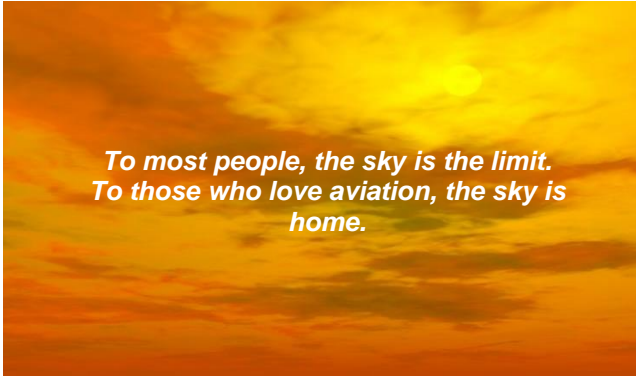

### Flight Operation Audits

*A flight operations audit can be performed through line operation flights by observing crew and the practice of CRM.*

*Other audits of the Operations Engineering or Flight Operations can be performed with pilots or engineers experienced in the subject who have set up such departments within major airlines.*

### Training Department

*Review of the training department and help managers to ensure that the department is using the most efficient and cost effective tools.*

*To most people, the sky is the limit.  
To those who love aviation, the sky is home.*
